ASTUDIO

collaborating

This architectural site plan, titled 'TAV F4.1', illustrates the general layout of a development in Chivasso. The plan is divided into two main sections: 'COMPARTO A' (lower half) and 'COMPARTO B' (upper half). It features numerous building footprints, many labeled with parking spaces (e.g., '2pft', '1pft', '3pft', '4pft') and specific dimensions. Key infrastructure elements include 'C.so FERRARIS' at the bottom, a 'Ponte' (bridge) on the left, and a 'vino ferrovia' (railway line) at the top. The plan also shows 'Sedime futura viabilità' (future road bed), 'strada vicinale esistente' (existing vicinal road), and 'distanza dai confini' (distance from boundaries). Various parking areas are marked with 'P1' through 'P6'. Other features include 'ROGIA ESISTENTE' (existing ditch), 'NUOVA VIABILITA' VERSO NORD FERROVIA' (new road towards north railway), 'PISTA CICLABILE ESISTENTE' (existing cycle path), and 'CONVALLAZIONE' (valley). The plan includes numerous dimensions and labels for specific areas like 'V10' and 'S1'. The 'ASTUDIO collaborating' logo is visible in the top right corner.
